

Erratum to “Integrating Data-Mining Support into a Brain-Image Database Using Open-Source Components”

Herskovits EH*, Chen R

Department of Radiology, University of Pennsylvania, Philadelphia, U.S.

Change of authorship

The article titled “Integrating Data-Mining Support into a Brain-Image Database Using Open-Source Components”, submitted and published in *Advances in Medical Sciences* in 2008, discusses a brain-image database. Some of the early work on designing and implementing the brain-image database discussed in the article had been performed by a postdoctoral researcher, Mohamed I. Owis, who had left the Department of Radiology, University of Pennsylvania, Philadelphia, U.S. in 2006. Unfortunately, as a result of negligence and due to the time that had elapsed, Dr Owis’s name was not listed in the original publication. However, he should receive credit for his work on this project. The correct authorship of this manuscript should be as follows:

Herskovits EH^{1*}, Owis MI^{1,2}, Chen R¹

¹ Department of Radiology, University of Pennsylvania, Philadelphia, U.S.

² Systems and Biomedical Engineering Department, Faculty of Engineering, Cairo University, Giza, Egypt
